

Pembina Pipeline Corporation implements Petrotranz COTS and LTS

CALGARY, AB, Canada (April 26, 2013) – Petrotranz Inc., is pleased to announce that Pembina Pipeline Corporation has fully implemented the Petrotranz Crude Oil Transportation System (“COTS”) and Petrotranz Liquid Transportation System (“LTS”). Petrotranz Inc.’s COTS and LTS are secure, easy-to-use, web-based communication and collaboration platform that streamlines the manual processes and documentation required in the transportation of crude oil from wellhead to market.

“We are very pleased to announce that Pembina Pipeline Corporation has implemented Petrotranz COTS and LTS for both the forecasting and splits process”, says Brent Stankowski, CEO, Petrotranz Inc. “We are working closely with their team soliciting feedback for further improvement and enhancements.”

About Petrotranz Inc.

Petrotranz Inc. is a technology company that builds, deploys and manages secure web-based industry solutions that automate and improve manual or inefficient processes in the Energy Industry. The first commercial application developed by Petrotranz was the Crude Oil Transportation System (COTS) used to receive and manage forecast and splits information for all relevant stakeholders automating the 3 month crude oil lifecycle. COTS is used by over 425 companies to manage more the 1 Million bbl/d of crude oil forecast volume in the Western Canadian Sedimentary Basin.

Petrotranz also provides volumetric and financial management industry services and actively serves as the COLC Administrative Manager and the ITC Invoicing Contractor.
