

Gibsons Energy implements Petrotranz COTS

CALGARY, AB, Canada (January 1, 2014) - Petrotranz Inc., is pleased to announce that Gibsons Energy ULC. Is starting to fully implement the Petrotranz Crude Oil Transportation System ("COTS"). Petrotranz Inc.'s COTS is a secure, easy-to-use, web-based communication and collaboration platform that streamlines the manual processes and documentation required in the transportation of crude oil from wellhead to market.

"We are very pleased to announce that Gibsons Energy ULC. is implementing Petrotranz COTS for their forecasting, volumetrics and splits processes", says Paul Howard Johnson, President, Petrotranz Inc. "We are working with their team closely on the implementation. The automation will help manage their internal data handling processes and overall data flow will improve."

About Petrotranz Inc.

Petrotranz Inc. is a technology company that builds, deploys and manages secure, web-based industry solutions that automate and improve manual or inefficient processes in the Energy Industry. The commercial applications developed by Petrotranz are the Crude Oil Transportation System (COTS) and the Liquids Transportation System (LTS) which are utilized to manage transportation and logistics information related to the 3 month crude oil and liquids lifecycle. The Petrotranz Technology Platform is used by over 650 companies to manage over 90% of crude oil and liquids volumes in the Western Canadian Sedimentary Basin.

Petrotranz also provides volumetric and financial management industry services and actively serves as the COLC Administrative Manager and the ITC Invoicing Contractor.
