

Tervita Corporation Implements Petrotranz COTS

CALGARY, AB, Canada (October 5th, 2015) – Petrotranz Inc. is pleased to announce that Tervita has begun to fully implement the Petrotranz Crude Oil Transportation System (COTS). The COTS system is a secure, user friendly, web based communication and collaboration platform that streamlines the manual processes and documentation required for the transportation of crude oil from wellhead to market. It significantly mitigates risk associated with volumetric data re-entry and improves the accuracy and the speed at which information can be made available to pertinent stakeholders.

“The commitment pledged by Tervita to implement COTS is extremely thrilling for all of us here at Petrotranz”, says Paul Howard Johnson, President of Petrotranz Inc. “This will create significant improvements for all of Tervita’s customers as well as their own internal departments. There are several advantages for company’s looking to leverage innovative technology in this environment and it has never been as important for all our industry stakeholders as right now!”

About Petrotranz Inc.

Petrotranz Inc. is a technology company that builds, deploys and manages secure, web-based industry solutions that automate and improve manual or inefficient processes in the Energy Industry. The commercial applications developed by Petrotranz are the Crude Oil Transportation System (COTS) and the Liquids Transportation System (LTS) which are utilized to manage transportation and logistical information related to the 3 month crude oil and liquids lifecycle. Petrotranz launched the Petrotranz Data Exchange (PDX) in January 2014. PDX is a secure, web-based data exchange that makes volumetric and financial information available in an electronic format between relevant stakeholders (Terminal and Pipeline Operators, Shipper Marketers and Producer Operators). The Petrotranz Technology Platform is used by over 1100 companies managing over 97% of crude oil and liquids volumes in the Western Canadian Sedimentary Basin.

Petrotranz also provides volumetric and financial management industry services and actively serves as the COLC Administrative Manager and the ITC Invoicing Contractor.
